DAIRY - PASTURE, HAYFIED, AND FIELD CROP HISTORY SHEET

Farm Name: _____

Fill out this Dairy Field History Sheet for all fields (organic, transitional, and conventional). You can use your own form as long as it contains the same information. List all inputs used or planned for use including all fertilizers, herbicides, pesticides, compost, and manure products. For 2012, list the names of all of the inputs you plan on using. If you are using a brand name product, make sure you list the brand name. For example, fertilizer is too generic a listing, list the specific blend and source of the fertilizer. For 2011 and previous years, list the names of all of the products you actually used. This form must accompany your updated Organic Dairy Farm Plan. You do not need to list amounts or rates of material applied. Baystate will check your input records to get that information.

Code: O = Organic; T = In Transition/Conversion to Organic; C = Conventional
